

How to Use Picture Messaging

- To send and receive picture messages, you will need a phone capable of utilizing picture messaging or MMS (Multi-Media Messaging Service), and you'll need to select a *picture messaging package*. (LINK TO FEATURES)
- Send your picture message to either a 10-digit mobile phone number, or send to any email address. You can also send your picture to your own online scrapbook.
- You'll need to send a picture message first in order to receive any future picture messages to activate your picture messaging service.

Using the Scrapbook

- Visit www.bluegrasscellular.com and go to ACCOUNT TOOLS then Picture Albums.**
- Choose REGISTER first, on the left hand side of the screen. You'll enter your name, 10-digit phone # and your email address.
- A text message will be sent to your phone with your password for you to enter the site. If you forget your password, click "Forgot your password" and it will be text messaged to your phone.
- For security purposes, change your password to something you'll remember but others won't easily guess.
- Send a picture from your phone to 7427 (PICS) as if you were sending to a mobile number. Refer to your phone's manual if needed.
- Once you log in to your Scrapbook, your inbox will show the pictures you have sent using the above number. You can then make changes using the tools in the Scrapbook, or create an album to store the picture. You can even upload photos from your computer to use.
- Send to a 10 digit Bluegrass Cellular phone # or to any email. The person receiving your picture will either be able to see it instantly in your message, or they can view it at bluegrasscellular.com by clicking ACCOUNT TOOLS then Picture Pickup using information that is text messaged to them.***

*Requires phone capable of matching pictures to a contact. Refer to your phone's manual. **Internet access required. ***Non MMS (picture messaging) capable phones will receive a text message directing them to a web-viewing page. Phones must have text message feature in order to receive this message. Charges apply for the transmission of pictures sent. Received picture messages are free, as long as kb/MB included in package are not exceeded. Fifty percent (50%) of customer's total airtime and data usage during any single billing cycle must be used within Bluegrass Cellular's home coverage area. Other restrictions may apply.
