

# Bluegrass Cellular 3G Network (EV-DO)

EV-DO speeds and service available in select markets with EV-DO capable devices. Speed and availability vary by location. Fifty percent (50%) of the Customer's total data usage (measured in kilobytes and megabytes) during any single billing cycle must be used within the service territory of Bluegrass Cellular and, if not, then Bluegrass Cellular may, immediately and without notice to the Customer, terminate data usage service. Other restrictions apply, see store for details. © 2009 Bluegrass Cellular, Inc. All rights reserved.
